CABO DE PALOS ISLAS HORMIGAS ISLA GROSA

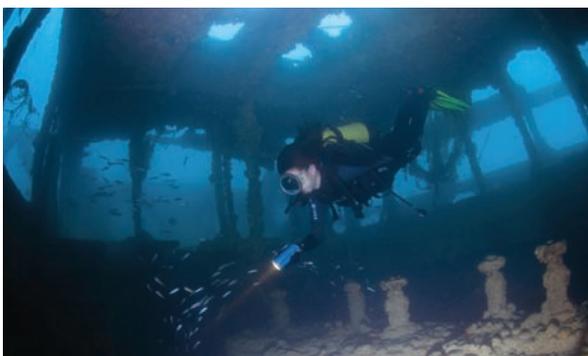

Would you like to move like a fish swimming in a stream? In Cabo de Palos, Islas Hormigas and Isla Grosa you'll swim while you contemplate really inspiring sceneries.

Cabo de Palos is at a privileged setting open to the sea; a place where plenty of marine species pass by and where you'll be willing to stay. Take it easy! Heading to the northwest, the Marine Reserve of Cabo de Palos – Islas Hormigas has fantastic reefs. Dive into history in an original and entertaining way next to old shipwrecks. It is definitely one of the best areas in the Mediterranean to enjoy diving.

Go through a real underwater garden in Isla Grosa and discover its wide posidonia meadows.

Estación Náutica Mar Menor - Cabo de Palos offers a wide range of nautical activities suitable for all ages, as well as accommodation and other quality services.

CARTAGENA & LA AZOHÍA

Would you like to go through history in depth? At the bottom of the sea in Cartagena is the key that will open the door to the past. At this destination, immersing yourself is much more than diving among fish. Let your emotions flow in crystal-clear waters at these fascinating seabeds, which are perfect for diving. Cartagena, protected from the easterly wind, offers the possibility of discovering archaeological remains in Costa Cálida.

If you wish to enjoy a water immersion initiation, La Azohía is the perfect place: a seaside village; a real delight. This small fishing village keeps Mediterranean traditions alive with ancestral fishing methods such as the almadraba.

The cliffs at Cabo Tiñoso protect this calm sea from currents. The numerous diving zones offer different depths from 12 to 42 m for all kinds of divers. Discover the bubbly backlightings of some underwater caves housing abundant marine fauna and flora.

DIVING ZONES

LA AZOHÍA

- 07 **Cala Cerrada.** Inlet with just one access to the sea. Perfect for diving initiation. Depth: up to 30 m.
- 07 **Cueva del Lago.** Suitable for all levels. It takes to a natural inner lake which is more than 70 m long. Depth: 3 - 12 m.
- 07 **El Arco.** This is one of the area's emblematic diving options. Here you can contemplate all the Mediterranean underwater sceneries. Depth: up to 37 m.
- 08 **Punta Falcón.** Seabeds which are protected from the easterly wind and have a unique position in the Iberian Peninsula. Depth: up to 34 m.
- 08 **La Farola.** The edge of Cabo Tiñoso receives a soft current due to the confluence of two bays. This allows for the constant streaming of shoals of predators, benthic species and a unique flora. Depth: up to 54 m.
- 07 **La Garita.** At the foot of an old military construction, the rock forms a group of stepped terraces where one can still see some specimens of charonia lamps. Depth: up to 30 m.

CARTAGENA

- 09 **Isla de las Palomas.** Three different diving options. The island tour stands out. Depth: 5 - 25 m.
- 09 **Bajo de las Palomas.** Underwater mountain ridge next to the island. Depth: 10 - 30 m.
- 09 **Cueva Neptuno o de la Virgen.** Situated on the east of Cabo Tiñoso. It is among the most visited caves. Easy access and ascent to inner lagoon connected to surface. Depth: up to 14 m.
- 10 **Isla de Escombreras .** Three different diving options. The Pared del Capitán (500 m long) stands out. Depth: 0 - 25 m.
- 10 **Bajo de Escombreras .** Ridge next to the island. Depth: 8 - 35 m.
- 10 **Pecios del Centro de Buceo de la Armada.** Remains of a tugboat and cockpit. Depth: 12 - 22 m.
- 09 **Las siete colinas.** Group of seven ridges. Depth: 10 - 30 m.

ÁGUILAS

Once you try diving, you fall in love with the sea. Fish are playing hide-and-seek while seaweed and coral are floating around you at great seabeds. Each diving opportunity is different and you always want to go farther.

In Águilas you can definitely satisfy your thirst of adventure. There is a huge underwater region from Peñón de la Cueva de Los Lobos to Punta Parda. Plenty of diving zones protected by majestic cliffs and beautiful beaches, with every guarantee to avoid risks.

The configuration of the seaside of Águilas and the protection of crags and mountains of Sierra del Cantar, together with the temperature of the water, have turned Águilas into a perfect spot for diving enthusiasts. Check it for yourself!

The feared easterly and northerly winds do not arrive here and the westerly wind barely affects this area. Only the Lebeche (southerly wind) affects these calm Mediterranean waters of warm temperatures from time to time. With such unbeatable conditions, you'll definitely get farther than the Nautilus! Have a good journey!

MAZARRÓN

The wind caresses your face. The sunshine fills you with energy. The water reflection lights up your smile. What are you waiting for? It is time to explore the huge sea in Mazarrón.

Experience weightlessness while you float and leave behind the daily concerns. The Port of Mazarrón, situated between Cabo de Cope and Cabo Tiñoso, at Golfo de Vera, is a unique Mediterranean setting. Its 35 km of coastline offer plenty of deserted coves and impressive diving zones with underwater caves. It is not important if you are an expert diver or just an enthusiast. By the Murcian seaside you will find incomparable seabeds adapted to you such as a wetsuit.

The diving zone mainly occupies 10 miles around the port, where you can enjoy diving with depths of up to 60 m. Don't be scared!
